Swift Walnut Shelving Unit

If you need a spacious, retro-style shelving unit to display all the cool stuff that you have assembled through your life you may want to consider the **Swift Walnut Shelving Unit** from [FASHION FOR HOME](#). This distinctly modern shelving unit has rounded corners that is has a more vintage feeling then many of the more linear, contemporary shelving available on the market.

With the openings in the side and the combination of open, partly open and closed off shelving spaces, the Swift Shelving Unit has an extremely open feeling that offers many options for displaying your collection old cameras, Antique Bakelite radios, vintage troll dolls or whatever it is that you want to display. It can be used up against a wall or it makes a great way to divide a room. The openings in the side and rear make it perfect for viewing your books or treasures from any angle.

The shelves are generously proportioned ranging from 15.74" to a whopping 29.92" in length and a 15.74" height that is big enough for even your tallest books. I really think that the **Swift Walnut Shelving Unit** is a standout example of what a shelving unit can look like without spending a ton of money, it only costs **\$879.00**, a mere fraction of what other, comparable shelving units of this size and style can run. Check out the other, similar styled shelving units at [FASHION FOR HOME](#).
