# The Georgia Cardboard Sideboard is "Green"

The **Georgia Cardboard Sideboards** have an urban, modern design made from inexpensive and renewable materials. Get a hip sideboard that is affordable, eco-friendly and practical alternative to a wood or metal sideboard.

These interesting sideboard consoles are made from cutting one cool modern shape out of a large sheet of recycled cardboard, then another and another, then bonding them together into one sturdy solid mass. The result is a 100% recyclable sideboard that looks amazing and appeals to my sustainable, eco-friendly side as well.

But these cool and colorful sideboards are tremendously functional as well. Each **Georgia Cardboard Sideboard** has three deep and spacious shelves that are great for either storage or displaying your cool stuff. The end facing the room covered by a SGS certified film made of PVC and is available in cool, bold colors like [Green](#), [Purple](#), [Red](#), [Yellow](#), [Brown](#) or [White](#).

So show off your conspicuous lack of consumption with this cool and contemporary sideboard design and be the envy of your eco-conscious friends and family because being sustainable doesn't have to mean making sacrifices in style. The **Georgia Cardboard Sideboards** are only available from [FASHION FOR HOME](#).

How Cool It This?

we just found this article about our georgia cardboard. Thanks for this creative article. We enjoyed reading it! Could you tell me how you found our georgia sideboard? Did you hear from us before? I would like to send you some more material... is there any topic you might be interested in?

Let me know! I appreciate your feedback!

Thanks,

Simone
